WEDNESDAY, NOV. 9, 1881

WHEN a sailor hears of a marriage, it is said that his first exclamation is: "Look out for squalls."

OWENSBOURG has a National bank. An issue of \$45,000 in notes will be made within the next thirty days. The authorized capital stock is \$250,000.

THE Czar of Russia still lives in dread of his very shadow. Nullifiers confront him at every turn with their engines of war, and large numbers of arrests are made daily.

QUEEN VICTORIA has reigned longer than any other sovereign of England except George III. She completed the forty-fifth year of her reign a few weeks ago. Elizabeth reigned exactly forty-five years.

A LOUISVILLE preacher preached a sermon last Sunday, entitled "Uphill Business." A great many preachers did it.

SOME THIEVES went into the pasture of Press Bratcher, Esq., of Spring Lake, last Wednesday night and killed a fat ox which would have weighed 1500 pounds. Nothing was left save the head, and that had a bullet-hole in it.

FEMALE SUFFRAGE is marching on in the West. In the Legislature of Washington Territory it was defeated by a vote of 13 to 11, and its friends are confident it will win at the next session.

THE President has proclaimed Nov. 24th as a day of National Thanksgiving. The Governors of most of the States have done likewise.

HON. CHAS. D. JAMES will probably be elected Mayor of Louisville without opposition. The *Concord-Journal* regards this as fortunate, as the Mayor-elect will be under no obligations to partisan friends. Partisan friends are the bane of official honesty in my estimation.

POMEROY'S Great West says that "the Greenback vote of the United States has dwindled down until in two years, at the present rate of decrease, there will not be enough of it to laugh at, or to find under a 5,000 radio lens." About what we have thought of it all along, but when he was the greatest exponent of Greenback principles say so we know what to expect at once. The sooner the better.

We learn from the *Echo* that Frey Woods has been acquitted of the charges brought against him by a negro woman of Greenville. Nobody ever believed the charges to be true, and we are truly glad that he has taken a wise course and has been vindicated by the courts. The negro woman is under arrest for perjury and will doubtless be sent to the penitentiary.

THE trial of the Star Route gang began last Thursday. Bob, the general agent, is anticipated as Bob is noted for ways that are hidden and sufferings that are many. The country at large will watch the trial with interest, as it is purely an issue between honesty and corruption. James seems to be governed by Grant's "Let no guilty man escape!"

ARMY worms have appeared in the region of country between Princeton, Ky., and Clarksville, Tenn., and are daily destroying whole fields of wheat. It is said that they are not of the ordinary migratory kind, but that they come up out of the ground, eat to satiety and die. This destroys their claim to the name of army worm, as that insect marches and forages in regular military style, and at the end of its career burrows into the earth. There is nothing known that will effectively destroy them when once in a field, and none of the remedies employed for the army worm proper can be applied to this pest. Our consolation is that the season is fast growing so cold that insect life cannot stand it.

A CORRESPONDENT furnishes a chapter or two from the Book of Chronicles for this issue of the HERALD. He pronounces it as Horace Greeley once said, "mighty interesting reading," and it will run through several numbers of this paper. Our readers can judge of the article for themselves. Right here we would state that the HERALD, like every other paper, disclaims responsibility for the views or expressions of correspondents or contributors. Anything not of an objectionable nature which may be furnished us will, if in our judgment, it is sufficiently meritorious, be published, and, in all cases, our columns are open to answers from any source, such answers, of course, to be governed by the rules applied to the original contribution. We invite discussion of any and every subject of general interest, and would be glad to give space every week to well-written articles on the leading local or general questions.

THE Messenger and Examiner informs us that we were mistaken, widely mistaken, when we stated that sickness prevailed to an alarming extent in Owensboro. We hope we were, and if so we are glad, for if there is anything outside of Hartford and Ohio county that we are interested in it is Owensboro and Daviess county and sister towns and counties in the Green river country. Of course any report of epidemics or unusually fatal sickness of any kind is detrimental to the business and other interests of a place; and if we are imposed upon we will in every instance gladly make any correction due. The Messenger and Examiner says that there is not a healthier city in the country than Owensboro, and there is no occasion for any one having any hesitancy about visiting the place on account of typhoid fever or any other disease. We are glad to know this, and hope it may never be otherwise.

HOPKINSVILLE is soon to have gaslights. That is, they are talking about it, and talk in Hopkinsville means something.

THE fourth annual convention of the Young Men's Christian Association of Kentucky will be held in Lexington November 10, 11, 12 and 13, 1881.

OWENSBOURG has a National bank. An issue of \$45,000 in notes will be made within the next thirty days. The authorized capital stock is \$250,000.

MORMON missionaries are still at work in Virginia, Tennessee and Georgia. Their converts number hundreds, and are sent west as fast as they can be removed.

NOR the least amusing thing about the alleged spy paragraphs of the so-called humorists is the fact that they first appeared in the comic almanacs from a dozen to sixteen years ago.

THE Louisville Post has been reduced in price to two cents per copy. Ere long it will be hard to give the little thing away. The only thing to all appearances that is solid about it is its check.

READ the card from Hon. H. P. Hoek in answer to that of "W. P. C." which appeared a week or two ago. Mr. Hoek explains very fully his connection with the legislation which established Hart College.

THESE can never be another Jacob's ladder. Since that time the heavens have gone farther off and have grown astronomically.

ASTRONOMY has rendered the building of another Jacob's ladder—even in dreams—an impossibility.

STRAWS is still bounding on and ere long will be read by the whole South and Southwest. All office is soon to be established in Chicago, where the paper will be issued at the same time as in Louisville. Some of its jokes are a little stale, but the general reading matter is of a substantial kind.

THIS alarming and increasing frequency of railroad wrecks and accidents should set people to thinking and inquiring as to the cause. Not a daily paper can be picked up but what something can be learned of a wrecked train, occasional loss of life and always damage to something or some person. Drunken brakemen, careless engineers or reckless conductors are generally the cause of accidents, and it is rarely the case that this disaster is wholly unavoidable. The officials should be more careful in the selection of employees and more watchful of them after they are put on the roads. A vast responsibility rests upon a railroad, and none but the best and most trustworthy men should be given positions in the service.

He has been a life-long Democrat and has suffered at the hands of his enemies for his fidelity to his party, but he has never been known to waver.

TAKING all these facts into consideration, we are satisfied that if Col. Pettit should be elected he will make a faithful representative.

HON. THOMAS S. PETTIT.

In a communication from Owensboro, which appears in this issue, mention is made of the gentleman whose name serves as a caption to this article as a possible candidate for Congress from this district at the next election, and the writer takes occasion to speak in very high terms of Mr. Pettit, his talents, ability, experience, address, &c., all of which we most heartily give assent. We have no doubt in who would faithfully and efficiently serve the Second District, necessarily is one them, for no natural ability of a very high order, he adds the indispensable qualities of industry, faithfulness to his constituents, devotion to principle and an exalted opinion of and regard for the right. Add to this his unwavering loyalty to the Democratic party and we have a combination of elements rarely found in one man.

As a public speaker Mr. Pettit is a success, but it is not to this that he would look to make for himself a name in Congress or a place in the hearts of those who sent him there. Instead of going to Congress and making one or two great speeches and falling back with glory enough for one session, he would be found at work at all times in the interest of his constituency, his State, and above all, his district. Ten thousand printed copies of a great speech would not satisfy him, and while we might and doubtless would tear from him in that time, we should likewise hear from him in a far more substantial manner. His has been a life of hard, earnest, practical work, and nothing else could be expected of him in the legislative field of the nation.

His experience for the past several years has been of such a nature as to preventfully fit him for the duties of a Congressman, he having been Clerk of the Kentucky House of Representatives and Reading Clerk of the House of Representatives of the United States for the past four years. In Congress his opportunities for acquiring knowledge should be useful to a Representative have been unsurpassed. In fact far better than if he had been an actual Representative, as not a bill was ever brought into Congress during his incumbency that he did not render himself perfectly familiar with.

He has been a life-long Democrat and has suffered at the hands of his enemies for his fidelity to his party, but he has never been known to waver.

Mr. Pettit is now conducting a series of meetings at Sugar Grove, Ohio, near Masonville, Haynesville, Ky. C. Chevins, of Louisville, had an appointment to lecture here last Wednesday evening, but failed to reach here until the next day. It is to be regretted that both he and the citizens were disappointed.

Rev. F. M. Sharp is from home conducting a revival at Hazel Creek church.

REV. W. W. WILLIAMS has aroused the people at Bethlehem church to proper consideration of their religious considerations, as I judge from the results.

While the Preacher did not bless me nor five feet thick, yet he did not fail to locate quite a quantity of fine stone, such as is suitable for all sorts of stone work. The contractor on the bridge across the Ohio river at Henderson has visited this place with the view of getting stone, three hundred loads to work getting out stone. This, like other public works, will necessarily bring some extra money to this community.

I am informed by the Superintendent of the O. & R. R. that funds are available on the Cleveland road between Owensboro Junction with the view of completing it through to Barberville. Certainly nothing could happen that would be more difficult to the people here, and, in fact, all along the line. The road is now doing a good business and will certainly prove to be a profitable one when completed.

MASSACHUSETTS COMMISSIONER'S DOCKET, OCTOBER CREDIT COURT—NOVEMBER TERM, 1881.

The cases referred to me to take pro bono have been set for the days shown by the following docket. Parties must have witnesses subpoenaed and go bonds promptly. Will begin each day at 9 o'clock a.m. and continue from day to day until all the proof of fact is taken.

JOHN P. BARRETT, Master Commissioner. D. H. French, *c/o*, vs. Walter Samuels, Wednesday, Nov. 9.

V. K. Williams vs. John P. Cooper, Friday, Nov. 11.

John M. Kirk vs. J. C. Townsend, Monday, Nov. 14.

J. N. Sandefur vs. Wm. Shown, Thursday, Nov. 17.

A FIRST-CLASS SENSATION.

There's Many a Slip 'Twixt the Cup and the Lip.

The Old Stage Verified.

It is not often that this county furnishes the world with a sensation—a downright and thorough-going sensation—but when it does you may look for something sly, something that shall not be forgotten in a day. Blood is usually connected with Old County sensations that are worth recording, and blood is too precious to be drawn at ordinary meals, so we often get to believe that events of note are filling of the past except when bad whisky comes into the ring. Even then one is shocked and horrified, for there is nothing enjoyed in the contemplation of a murder instigated by rum or any other agent.

But *Everyday!* It is here at last and is a good one.

Miss M. Ueles Brown is a daughter of Mr. John Brown, of this county, and is a whisome of 21 summers and comely to look upon. Many is the youthful heart that beat tumultuously at the bewilderment of a glance or a smile of the rustic beauty and her conquests were more than she could count on the tips of her finger tips.

Her heart was born through many a siege of love, and every battery of heart-felt and soul-stirring declarations was ineffectual until Mr. William Wal-

ston appeared on the scene when after a little effort on his part she whitewashed into the Eden of love with her William by his side and both keeping time to the music of the angels as played by two hearts that beat as one, etc.

All went well and Wesley was set as the happy one when they dreamt of bliss and each other should be realized.

He was happy and she was happy, but all is uncertain here below. Walston went home from his last visit and wrote to Dr. W. P. Bennett, of Island Station, to be on hand Wednesday to the the

best pleasure than would her complete recovery.

Mrs. Dennis Ticehier is also very much improved. She too has been visiting friends in the neighborhood.

J. Banks Wade has been quite sick nearly two weeks, but is improving.

Uncle Buck and Aunt Garner Wade have been visiting their daughter, Mrs. E. M. Robertson, near Rockport this week.

Mrs. Sadie Garrett, of Ceredo, made a fly-visit yesterday evening.

Mrs. J. McDaniel and daughter, Miss Sallie, left on Monday evening for Canner, Hart Co., their new home. Bro. McDaniel has been on the Hartford circuit for two years, and it is with regret to the citizens of town as well as the whole circuit that they leave us. He is an earnest worker in the cause of Christ, and we commend him to the people of that circuit.

-Jockey street presented quite a lively appearance last Monday. Numbers of old plugs changed hands, with occasionally a better piece of horseless passing under the hammer, exchanging, etc.

-It is simply marvelous how quickly constipation, biliousness, skin headache, fever andague, and malaria, are cured by Seller's Liver Pills."

-Ayer's Cherry Pectoral is a really remarkable and time-honored medicine. It is the best known remedy for all diseases of the throat and lungs.

-There is no doubt but Steven's shoes are the best goods for the money ever offered in Hartford. This is the verdict of every person that has ever used them. Anderson's Bazaar has just received a big stock of them.

-Mr. B. M. Bennett, of Beckley, has a service tree which has the second crop of sarries on it. In proof of this he has sent us a bunch of them which are green and about ripe. We have heard of other similar circumstances, but none of them have sent us a sample of the fruit except Mr. Bennett.

-C. W. Phillips, ex-Sheriff, sold a good quantity of land for taxes last Monday. -A fire occurred at Goff's Crossing last Sunday consuming a storehouse belonging to J. W. Bratcher, worth about \$500, and a stock of goods in it belonging to H. Clay Fields, supposed to be worth \$600. It is supposed that the fire was communicated by sparks from a passing train. There was no insurance on either house or stock that we could learn of. Why is it that men will take their own risks when they can be protected so cheaply. These parties should have had insurance policies issued by Barrett & Bro., Hartford, Ky., who represent none but good companies and do their work in such a manner as to stand the test and protect the assured against accidental loss by fire. If you have not already done so call on them and be insured at once.

November 4, 1885.

Editor's Note:
It now turns out that the crops are not as good as the farmers a few weeks ago expected. Corn will make about one-half a crop and tobacco about two-thirds.

The health of the Knob is very good now with the exception of a few cases of scurvy fever, which have been of a very mild form.

The wife of Dr. J. W. Meador is very low with consumption.

An infant child of J. M. Bowling is in a very dangerous condition from convulsions. It had thirty-six in one night.

Mr. T. H. Marlow, a very old and highly respected citizen of this vicinity, came near dying last week of cramps.

An infant child of Charles Carter died last week of summer complaint.

Mr. George F. Riley died on the 22nd ult. of consumption. He will be very greatly missed in the community.

Success to the HERALD and its editors.

CHANCE.

Liquid or Dry.

Some people prefer to purchase medicines in the dry state so that they can see for themselves that they are purely vegetable. Others have not the time or desire to prepare the medicine, and will readily use it.

To accommodate each class the proprietors of Kidney-Wort now offer that well-known remedy in both liquid and dry forms.

Sold by druggists everywhere.—

Campsville Items.

Editor's Note:

Plastics of Fashion.

"No," said the spique, thinking there

was a good excuse for a little fun being in the bushes itself, and then I'll marry you."

Reluctantly the youth went out to where was hitched the horse, upon which, Darby and John fastened, they had ridden, and brought the way in a sick. On being weighed, its value was found to be only sixty cents.

"Well," said the anxious groom, "the king and I'll take no more way next week."

"No, sir, I don't trust that is against the rules of the office."

Slowly the disappalled youth entered to go on saying, "On Sat., 8th, U.S.A."

"I say, master," answered Soll, with a woman's wit, "can't you marry us as far as the wax will go?"

"Yes, I can and will," replied the squire, laughing, and he did.

CONSTANCE.

How a Chicago Girl Peaved Her Lover A Romantic Date.

"Do you love Darby now as much as you did last Thursday?"

It was a beautiful girl who spoke these words, as she leaned her head trustfully on the shoulder of a young man, whose strong right arm encircled her corslet.

"Your heart must tell you that I do my sweet," he murmured, folding her closely to his breast.

Juliet Matlatty and George Williamson had plighted their troth months ago in the festal Christmas time, when the earth was wrapped in a mantle of snowy winterwear and the moon looked down cold and beautiful on the thronged oyster saloon. It was now September. The snow had given way to the violet and the oysters to the ice cream.

But Juliet's love never wavered. She had for George a claim but intense affection that burned all the time in its wondrous depths. "A true woman never loved once, and you are my idol," she had said to him one night after he told her her bustle was coming loose. From that instant each understood the other perfectly.

"But, George, dear," said the girl again, "if you love me with a really true love, kiss me again..."

A slender passed over the young man's frame and he changed the subject of conversation. But the girl would not listen. "You must kiss me," she said, "or you do not love me."

Among other millinery novelties is a felt hat, with a deep brim and square crown, called the accordion crown. This consists of a four-cornered piece, stiffly lined, and resting upon folds of velvet or plush, which give the accordion effect.

Here is a good way to make an old dress almost as good as new: Get enough new striped or plaided novelty material, the gayer the better, and be sure to select one with metallic threads and add this to the material of your old dress, if of plain stuff. In the way of cuffs, collars, revers, pockets, bands and looks; or, if the old material is striped or plaided, get plush of an inexpensive quality, and of such a color as will harmonize or harmoniously contrast with the old plaid or stripes.

Here are some of the hot ornaments of the season—shrimps of colored metal, tiny silver and gold mice, eels, heads, or the entire bird in colored metal, enamel, and feathers of the Turkey bird, metal and bone waves' heads with the mouth wide open, showing the red tongue and sharp white teeth; daggers and pistols of gold, silver and other metals, sometimes adorned with jewels, gilt and silver snails, tarts capped with gold at the base, mussels, octopuses, lobsters and crabs in enamel and gilt, and gilding or jet and casting.
